The Latest Innovation in Space Utilization Industry

Storage Systems

**EQUIPMENTS & INTERIORS PVT .LTD**

Manufacturers & Suppliers of Office & Industrial Storage Systems

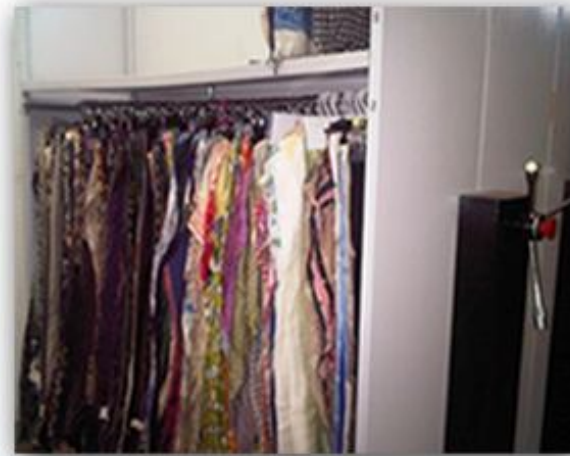

## Compactor Shelving System

Established in the year 1983, we have been able to create a platform for ourselves as a renowned organization engaged in manufacturing, supplying and exporting a remarkable range of Office & Industrial storage system for Records & Material storage. Our products include Compactor Shelving System Mobile Storage Systems, Hand - Pull Compactor And Slotted Angles Systems.

We are an ISO 9001:2008 certified company with full fledged manufacturing setup on the outskirts of Mumbai, with all machinery & trained manpower. We use premium grade raw material, which we procure from the reliable vendors. Our products are highly appreciated for their salient features like stylish & elegant designs with aesthetic appeal to merge with the environment. Over the last 30 years we have catered to clients all over India and abroad in all sectors like

- Pharmaceutical & Health Care Companies
- Bank & Financial Institutions
- Libraries
- Hospitals
- Engineering Companies
- Logistics Companies
- Food & Chemical
- Textile Industries
- Government & Defense Establishments

E&I is specially focused in providing custom-made system, designed as per a customer's requirement

## Sailent Features

- Tailor made system designed in given space to provide maximum storage capacity by eliminating need for more than one passage
- The storage units can be flushed together & the system is locked at one end for total security
- Ensures protection from dust
- Very safe & easy manual operation
- Requires almost no maintenance
- Decent appearance having Powder Coated finish in colour shade of your choice

## Heavy Duty Mobile Shelving System

As the name suggests, these are specially designed Mobile Racking System with heavy duty superstructure for the storage of materials such as

- Raw materials , in the form of drums , cartons , etc
- Finished goods
- Engineering stores
- Maintenance stores
- Cold storages
- All types of bulky materials

### Used By

Pharmaceutical Industries , Engineering Companies , Logistics Companies, Food & Chemical Industries ,Textile Industries etc.

## Hand-Pull Compactor/Push & Pull

These are light duty Compactors having a long & elegant SS Handle, which is Pulled & Pushed by hand , needing no mechanical drive. They are best used in passages to create additional storage. The span of this system is limited 5'0" & loads upto 500 Kgs. UDL.

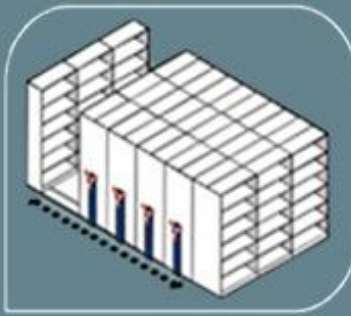

Our manufacturing facility has a complete In-house quality testing and R & D facility .The Policy of the company is to provide customized, safe and economical modern space saving storage systems to its clients.
